	(full - day)	Joining Child Care Centre Subsidy Scheme	-
Providing occasional child care services	-	Providing extended hours services	-

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>Our curriculum is compiled according to Biblical truth and centres around spiritual education. Children are nurtured in an environment filled with love to practise Christ's love -- they care about others and the society. We foster children to love learning, to communicate well and to be innovative. The school uses the Hawaiian Biblical Foundation For Early Childhood Education as the basis for children to share words of the Scripture every day and to praise and worship God together.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>We adopt the learning approach that allow children to "learn from play" and "experience from practice". Our teaching encompasses Montessori life skill education: including daily life manners, taking care of the self and taking care of the environment; sensory education: human intelligence starts with senses, which create cognition and then wisdom; mathematics education: starts with sensory training and then transforms abstract concepts to concrete representations; language education: we use accurate pronunciation to train up children's listening, as children's mastery of accurate pronunciation boosts their language skills; cultural education: we cultivate children's awareness of the world and the universe; the natural humanistic education: which includes zoology, botany, astronomy, geology, history, art and craft, etc., helps children to adapt to the social environment and hence to live happily. We provide diversified activities for developing children's "multiple intelligences", which include experiments, simulations, creative work, visits, etc. We adopt the "Project Approach" for building up knowledge and acquiring life skills. We also adopt the "Picture Book Teaching" for building up knowledge and life skills. We create unlimited space for imagination and make use of picture books for interactive teaching, which not only expand children's learning space but also develop their potential.</p>	
Assessment of children's learning experiences	
<p>We record children's learning through continuous observation for assessment of the overall developmental result, assessment of each unit theme and the summative assessment. We create for each child a learning portfolio, which includes learning workbook, behavioural observation logging and all the records of their learning history in the areas of cognitive, social, emotional, aesthetic and physical development.</p>	

School Characteristics	
School vision and mission	
<p>With our core based on Christian education, we teach children according to the biblical truth so that they could learn happily and grow with Christ's love.</p>	
Support to students	
<p>Home visits, new student adaptation period, pre-primary adaptation class, multiple intelligence workshops, primary one subject tutorials, primary one adaptation, primary school visits, collaboration with the community and participation of community activities, follow-up for organization and group visits.</p>	
Support to non-Chinese speaking (NCS) students	
<p>Received Grant for Support to NCS Students; arrange interpretation / translation services; create an inclusive learning environment to facilitate students' integration.</p>	
Support to students with special needs	
<p>Joining the On-site Pre-school Rehabilitation Services. We joined the Pilot Scheme on On-site Pre-school Rehabilitation Services which launched by the Social Welfare Department since 2015. Under the Pilot Scheme, on-site services are providing by the "Y Seeds Wellness Service" of Young Women's Christian Association to our students</p>
