	(full - day)	Joining Child Care Centre Subsidy Scheme	-
Providing occasional child care services	-	Providing extended hours services	-

Curriculum Details

Curriculum type : Local

Curriculum planning

The school compiles the curriculum according to the "Kindergarten Education Curriculum Guide" of the Education Bureau, allowing young children to develop children's spiritual, ethics, intellect, physique, social skills and aesthetics qualities through games and personal experience. Our school uses Chinese as the daily language. In recent years, it has devoted itself to implementing environmental education and religious integration courses.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

Our school is led by specialist teachers to lead English interest activities, and a non-Chinese language learning group is set up to allow non-Chinese speaking children to learn Chinese in an interesting way.

Assessment of children's learning experiences

Teachers comprehend children's learning progress and their physical and mental development through continuous observation and logging. Teachers then let parents understand their children's learning situation through distribution of assessment reports, meetings and class observations at various time intervals. The school also takes these opportunities to collect parents' feedback. Finally, we use the Child's Growth Portfolio for the final report.

School Characteristics

School vision and mission

School located in Yung Shue Wan, Lamma Island, surrounded by flowers and trees, vast outdoor spaces, children are in touch with nature and participate in outdoor activities in their daily learning. Students come from different countries around the world, get along well on a multicultural campus, enjoy a joyful group life, learn to respect the Lord and love others, care about the community, appreciate and cherish the beautiful things God has created for us.

Support to students

We provide activities for new students before a new school year starts so that they could get familiarized with the environment through participating in the activities with their parents. Besides, teachers keep track of children's learning progress through assessment records and observation so that we could provide suitable support to meet individual children's needs.

Support to non-Chinese speaking (NCS) students

Received Grant for Support to NCS Students; appoint additional teaching staff / teaching assistants to support NCS students learning Chinese; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese; participate in school-based professional support programmes organised by EDB.

Support to students with special needs

Joining the On-site Pre-school Rehabilitation Services.
