Child Care Services (Data as of Sept. 2021)			
With child care services for children aged 2-3	-	With child care services for children aged under 2	-
Fee level (per annum)	(half - day)	No. of enrolment aged 2-3	0
	(full - day)	Joining Child Care Centre Subsidy Scheme	-
Providing occasional child care services	-	Providing extended hours services	-

Curriculum Details

Curriculum type : Local

Curriculum planning

The kindergarten plans the curriculum in accordance to nurture children's knowledge, skills and attitudes. Learning runs through six learning areas and five developmental goals: Children's development in Moral, Cognitive and Language, Physical, Affective and Social, as well as Aesthetic. Design a comprehensive curriculum with appropriateness and flexibility to lay a solid educational foundation for young children's lifelong learning and whole-person development.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

According to the needs of the school, additional native English teachers and Mandarin teachers will be added, focusing on biliterate and trilingual teaching activities. Our kindergarten has participated in the "Pre-school Quality English Teaching" program organized by the EDB, which aims to enhance teachers' mastery of Phonics teaching skills and to arouse children's interest in learning English. The kindergarten pays special attention to the cultivation of character education, immersing religion in the moral education curriculum, teaching young children to love others as themselves, respect, care, courtesy, etc. The classrooms have a wealth of learning corners based on teaching themes, allowing children to learn through exploration and games, and with a high-level model, children can practice "planning, working, and reviewing", cultivating children to become active learners.

Assessment of children's learning experiences

In each thematic unit, teachers evaluate children's learning through observation and distribute relevant evaluation reports to let parents know their children's learning process. At the same time, teachers collect examples of children's performance in different areas through continuous and systematic observation, and analyze children's learning ability in an objective manner to establish personal learning history files, so that parents and teachers can understand children's learning needs through communication and cooperation, as to give children appropriate assistance and support.

School Characteristics

School vision and mission

Upholding CCC's vision: "Together we nurture richness of life; Hand in hand we witness Love of Christ", we are driven by the love of Christ to establish children's positive mentality, morality & spirituality, & enrich their knowledge to achieve balanced morality, intellect, health, sociability, aesthetic & spirituality.

Support to students

Provide community support information and referral services.

Support to non-Chinese speaking (NCS) students

Arrange interpretation / translation services; engage NCS parent volunteers to enhance communication between school and parents; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese; participate in school-based professional support programmes organised by EDB.

Support to students with special needs

Joining the On-site Pre-school Rehabilitation Services.

Link with parents

Parent-teacher association : Yes

Other activities / communication with parents

The kindergarten organizes a "Parent-Teacher Association" every year to discuss and implement various parent-child activities, such as parent-child travel, parent-child sports day and parent-specific seminars, and share with parents their children's learning through parent-child class observation and parent day.
