Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>Our curricula fit not only into the local stream but pairs well with the international teaching structure, where the aim lies to enable children to reach their full potential through social and cultural integration, no matter their circumstances, and to broaden and refine children's verbal and nonverbal communication skills. AIMS: *Encourage and help children to instill a positive attitude towards the acquisition of knowledge and understanding their world. *Assist children to develop their concentration power and observational analytical, reasoning and problem-solving skills. *Laying a good foundation of basic numeral knowledge. *Support and facilitate children's efforts to identify and express their thoughts and emotions linguistically. We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Learning / Teaching approach & activities	
<p>Confidence, self-control, self-trust, determination, perseverance are attributes that we aim to instill in all our children for an enjoyable and productive future. These are traits that need nurturing with care, guidance, and loving encouragement, not repetition. We are mindful of this and implement it in every interaction and activity. Therefore, we offer a diverse and dynamic program that focuses on developing physical, social, emotional and intellectual skills of children.</p>	
Assessment of children's learning experiences	
<p>A monthly assessment of the previous month's theme, all of which is provided to the parents through checklists. Furthermore, all weekly themed activities are accumulated and presented to the parents twice a year. Every Friday they take home their creative work of the week.</p>	

School Characteristics	
School vision and mission	
<p>Sagarmatha Kindergarten was established in 2000 with a clear aim to provide quality education to children. English and Cantonese are both used as the primary medium in which we implement instruction, since we are mindful to the need for children to learn the local culture and language in order to seamlessly integrate within the Hong Kong society at large. Thus, we have developed a focused, robust, and evolving theme that caters to the Chinese culture.</p>	
Support to students	
No information	
Support to non-Chinese speaking (NCS) students	
<p>Received Grant for Support to NCS Students; appoint additional teaching staff / teaching assistants to support NCS students learning Chinese; arrange interpretation / translation services; engage NCS parent volunteers to enhance communication between school and parents; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration; collaborate with non-governmental organisations (NGOs) to create an inclusive learning environment; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese; participate in school-based professional support programmes organised by EDB.</p>	
Support to students with special needs	
Joining the On-site Pre-school Rehabilitation Services.	
Link with parents	
Parent-teacher association : Yes	
Other activities / communication with parents	
<p>Building good parent-teacher relation is key for our goals for their child to come to fruition. Parents are always encouraged to get involved. They are notified of their child's growth through the weekly handbook or one-on-one sessions. They can also choose to have one-on-one sessions with their child's class-teacher or the principal.</p>
