Curriculum planning

We offer a child-centered Christian education, with a focus on Bi-literacy and Tri-lingualism. Our theme- and project-based teaching approach is designed to broaden children's learning experience across six major areas, empower them to learn through play and experience through practice, and cultivate in them a great character and problem solving ability. In addition, we offer integrated-sensory curriculum in our daily curriculum, in order to strength children's learning ability in all areas. We also implement story enriched curriculum, aims to promote children's interest in reading, and to understand both Chinese and English language, in order to establish a solid language foundation.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

We implement multimedia teaching to enrich children's learning experience, and cultivate in children correct values and good qualities by providing theme-based life education. We organize diverse activities including outdoor visits, English Week, to help children learn comprehensive knowledge.

Assessment of children's learning experiences
