Curriculum Details

Curriculum type : Local

Curriculum planning

A child-centred curriculum which bridges with primary one curriculum. It is based on "Kindergarten Education Curriculum Guide" promulgated by the Education Bureau and taking into consideration young children's abilities and characteristics at different stages of development. The concept of Mei-Yu Orff music courses are applied in our music courses. Native-speaking English and Putonghua teachers are employed in line with the policy of teaching by subject specialists.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

Professionally trained teachers make use of creative and 'whole language' learning environment to increase children's learning motive and enhance affective and social development, cognition, linguistic ability, aesthetic and cultural development and physical fitness in the 'topic studies' approach. Scaffolding is also used to promote children's ability to listen, communicate orally, read and write.

Assessment of children's learning experiences

Multiple forms of assessment are adopted to prepare a profile on each child's journey of learning through systematic observation and data collection. A child's learning outcome in various learning areas and scopes of development are shown in the profile. Children are also guided to give feedback through self- and mutual-appraisal for purpose of enhancing the curriculum.
