Curriculum Details

Curriculum type : Local

Curriculum planning

Development based on child-centeredness. We value biliteracy, trilingualism and life education. We use the Bible as a basis to let children learn about the truth and cultivate positive attitudes and values in the early years.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

We aim to enrich student life experiences and develop multiple intelligences through: Thematic teaching, Project studies, Drama, Off campus visits, Introduction to I.T. and Independent exploration

Assessment of children's learning experiences

Formative assessments of children's learning and their development situations are implemented through tools, A growth portfolio is created for each child, to record their learning, physical and mental development progress for each school year.
