Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>The curriculum is designed based on the Guide to Pre-primary Curriculum and children's physical and psychological developments and interests. Specialists are employed to teach the English language and Putonghua. The pre-school operative mathematics is applied in the learning of mathematics.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>Children learn through games, observations, experiments and operation. They are encouraged to observe more, listen more, think more and express more besides exploring through different senses. Teachers guide children to explore through environmental setups and life experiences. Opportunities are provided for expression. Children are also given the autonomy and rights to participate to their learning activities.</p>	
Assessment of children's learning experiences	
<p>A child's learning outcomes are observed and recorded on an ongoing basis based on a child's works, daily learning and performance.</p>	

School Characteristics	
School vision and mission	
<p>Quality pre-primary education is provided to foster all-round development in moral, intellectual, physical, communal, and artistic aspects, arouse children's learning interests and the want to learn, and foster accurate learning attitude to lay the foundation for future learning. An ideal, clean and hygienic learning environment is provided. Through home-school collaboration, children are helped to bring into play their potentials for holistic development.</p>	
Support to students	
<p>Parent-child activities before the start of the school years; new students adaptation period; seminars on the adaptation to primary one; visits to primary schools; catering the diverse needs of the children with the adjustment of the learning curriculum; referral services for children with special needs, joining the On-Site Pre-school Rehabilitation Services and the Pilot Scheme on social work services for Pre-primary Institutions.</p>	
Support to non-Chinese speaking (NCS) students	
<p>Received Grant for Support to NCS Students; arrange interpretation / translation services; create an inclusive learning environment to facilitate students' integration; collaborate with non-governmental organisations (NGOs) to create an inclusive learning environment; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese; participate in school-based professional support programmes organised by EDB.</p>	
Support to students with special needs

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
Curriculum will be planned in regard to the interest, physical and psychological development of children. The principle of 'child-oriented' is adopted and various learning domains, including Language, Self and Society, Early Mathematics and Science, Physical Fitness and Health, Art are integrated. Religious and moral education, language education and the development of creative thinking are emphasized.	
We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.	
Learning / Teaching approach & activities	
Individual, group and interactive team activities are organized. Integrated Curriculum and Whole Language Learning Approach are adopted. Children are encouraged to re-write stories and create children rhymes which has laid down their good foundation of language. The 'Enquiry, Expression, Exploration and Experience' approach is adopted to encourage self-exploration, questioning and answer seeking so new knowledge is experienced and built up during the process. Shared Reading Approach and Phonemic Awareness are also adopted which has strengthened the children's English ability, including listening, speaking, reading and writing. In addition, the implementation of Project Learning Approach and Situational Learning has nurtured the spontaneous learning and problem solving skills of children. Their creative thinking are also fostered.	
Assessment of children's learning experiences	
Continuous assessment throughout the school year is adopted. In reference to the age appropriateness of children, the learning progress of each child will be kept in the 'Children Physical and Psychological Development and Learning Record' and 'Individual Learning Portfolio'. Regular individual meetings with parents to discuss the growth and learning plan of children will be conducted.	

School Characteristics	
School vision and mission	
School motto: Love each other as I have loved you. Promote the Truth, Love, Righteousness, Freedom and Peace with God's love. Foster the balanced and full development of children in all aspects, develop their initiatives in learning, good communication and collaboration with others, sense of responsibility, full of creativity, ability to solve problems and noble character for the whole person.	
Support to students	
Our moral education in order to develop children's qualities of forgiving, respecting, loving, helping and accepting each other. To facilitate their adaption to changing environment, adaption programmes for newly admitted children and preparation to primary school life are organized. Stationing school social worker provide individual behavioral guidance for children .	
Support to non-Chinese speaking (NCS) students	
Received Grant for Support to NCS Students; appoint additional teaching staff / teaching assistants to support NCS students learning Chinese; arrange interpretation / translation services; engage NCS parent volunteers to enhance communication between school and parents; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese.	
Support to students with special needs	
Joining the On-site Pre-school Rehabilitation Services.	
Link with parents	
Parent-teacher association : Yes	
Other activities / communication with parents

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
Curriculum will be planned in regard to the interest, physical and psychological development of children. The principle of 'child-oriented' is adopted and various learning domains, including Language, Self and Society, Early Mathematics and Science, Physical Fitness and Health, Art are integrated. Religious and moral education, language education and the development of creative thinking are emphasized.	
We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.	
Learning / Teaching approach & activities	
Individual, group and interactive team activities are organized. Integrated Curriculum and Whole Language Learning Approach are adopted. Shared Reading Approach and Phonemic Awareness are also adopted which has strengthened the children's English ability, including listening, speaking, reading and writing. In addition, the implementation of Project Learning Approach and Situational Learning has nurtured the spontaneous learning and problem solving skills of children.	
Assessment of children's learning experiences	
Continuous assessment throughout the school year is adopted. In reference to the age appropriateness of children, the learning progress of each child will be kept in the 'Children Physical and Psychological Development and Learning Record' and 'Individual Learning Portfolio'.	

School Characteristics	
School vision and mission	
School motto: Love each other as I have loved you. To promote the Truth, Love, Righteousness, Freedom and Peace with God's love. To foster the balanced and full development of young children in social, intellectual, physical, moral, spiritual and aesthetic aspects. And to develop young children's initiatives in learning, good communication and collaboration with others, sense of responsibility, full of creativity, ability to solve problems.	
Support to students	
Moral education is emphasized. 'Children Month' and 'Love and Care Campaign' are launched annually in order to develop children's qualities of forgiving, respecting, loving and helping each other. To facilitate children's adaption to changing environment, mixed age activities, adaption programmes for newly admitted children and preparation to primary school life are organized. In addition, stationing school social worker to support the children and families.	
Support to non-Chinese speaking (NCS) students	
Received Grant for Support to NCS Students; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese.	
Support to students with special needs	
Joining the On-site Pre-school Rehabilitation Services. Integrated programme teachers are available to provide individual learning curriculum and behavioral guidance for children with special learning needs.	
Link with parents	
Parent-teacher association : Yes	
Other activities / communication with parents	
Family-school collaboration are emphasized. Parents are invited to school for individual parent interview. Parent-teacher Association (PTA) has been established and members of PTA and parent volunteers are welcome to participate in planning and leading children activities at school.

Curriculum Details

Curriculum type : Local

Curriculum planning

Our curriculum aims to foster balanced development and learning. Holistic development in moral, intellectual, spiritual, physical, communal, and artistic aspects is promoted. Children are guided to learn the enjoyable way. Play is used to stimulate children's interest in learning and foster good learning attitude.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

The child-centred approach is adopted. Various group activities, online learning, community participation and extra-curricular activities are arranged according to children's development and needs for building up knowledge through practical experiences. We endeavour to improve our teaching by participating in professional collaborative schemes.

Assessment of children's learning experiences

A child's physical and psychological developments are assessed on an ongoing basis during the school year. A child's journey of learning is recorded systematically and reported to the parents and teachers for reference so the child is appropriately helped to develop and learn.

School Characteristics

School vision and mission

Holistic child education is provided based on the Christian spirit of holistic education. All our workers accept each other and make use of their strengths to provide integrated quality pre-primary education for children in the district.

Support to students

The child-centred approach is adopted. Partnership is developed with parents to systematically help children with different needs. Various caring services are provided. Parent-child learning and online support learning are also available to help students bring into play their potentials.

Support to non-Chinese speaking (NCS) students

Create an inclusive learning environment to facilitate students' integration.

Support to students with special needs

Joining the On-site Pre-school Rehabilitation Services.

Link with parents

Parent-teacher association : No

Other activities / communication with parents

We maintain close contact with parents and support each other. Various parent's education and activities and parent-child activities are organized from time to time. Parents' opinions are collected systematically for improvement of service quality.

Curriculum Details
Curriculum type : Local
Curriculum planning
<p>The spiral theme-based curriculum is supported with specially designed activities and project-based approach for independent learning of children. Group activities are designed to guide children to plan, do and review so as to arouse their learning interest, develop self-confidence, self-discipline and problem-solving ability. Learning through play is also included in the group activities. Students are arranged to leave the classroom and carry out all-round learning experiences and activities as required by the themes learnt.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>
Learning / Teaching approach & activities
<p>Multiple intelligences are stimulated through theme-based approach, specially designed activities and learning through play and integrated activities. The development of language ability is emphasized. We basically teach with the mother tongue supported with interest activities to preliminarily expose children to Putonghua and English language.</p>
Assessment of children's learning experiences
<p>We assess children's performances and developments through ongoing observations. The areas of assessment include: "Moral Development", "Cognitive and Language Development", "Physical Development", "Affective and Social Development", and "Aesthetic Development"</p>

School Characteristics
School vision and mission
<p>The Chinese YMCA of Hong Kong children are guided to develop the 'Spirit', 'Mind' and 'Body'. Steadfast beliefs, accurate values and good living habits are fostered.</p>
Support to students
<p>'Parent-child adaptation week' is arranged for new students. Parents may accompany their children in class to help them adapt to campus life progressively. 'Kindergarten-primary interface' courses are arranged to transition to primary one. Individual students with special needs will be referred to professional counselling services.</p>
Support to non-Chinese speaking (NCS) students
<p>Received Grant for Support to NCS Students; appoint additional teaching staff / teaching assistants to support NCS students learning Chinese; arrange interpretation / translation services; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese; participate in school-based professional support programmes organised by EDB.</p>
Support to students with special needs
<p>Joining the On-site Pre-school Rehabilitation Services.</p>
Link with parents
<p>Parent-teacher association : No</p>
Other activities / communication with parents
<p>Home-school communication is emphasized. 'Parents meetings' are organized for all grades in both semesters to introduce the curriculum; 'Parents day' and 'Lesson observations by parents' are held in the school year. Various parents' education courses, workshops and activities are organized jointly with our social worker every school year.</p>

Curriculum planning

The school adopts Life Education as the monthly theme for enhancing early childhood development with moral stories, paired with bi-literacy and tri-lingual in the six learning fields. The curriculum is designed according to the physical and cognitive development, learning interest and needs of the child, also develop the children's knowledge, skills, learning attitudes and creativity, which together with Life Education will develop positive thinking and value in the child. The school will implement Free Play learning and Good Character to establish good moral in children. We hope the children will enjoy learning in a happy school environment which helps their development in moral, creative thinking, problems solving, intellectual, physical, social, cultural, aesthetic abilities and responsibility. We have completed the QEF Project of Quality Education scheme successfully. Our school will use this "Elementi Creative Picture Books Series" to integrate all learning areas. We expect our students can develop good learning foundations on all multiple intelligence.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

For the school base curriculum, the kindergarten designs an integrated curriculum by implementing real-life themes into teaching moral education and enhancing the development of linguistic skills by encouraging reading, stories telling and daily conversation in order to foster the development of children's skills, learning attitude, and knowledge. Designing diversified small groups activities for children to join in and the teachers can know well the abilities and personalities of individual students in order to give supports and encouragements. Learning through play, music and physical activities can enhance children's learning motivation and interest, facilitate their cognitive, physiological and psychological development. Through the teaching of Orff Music with Putonghua, children can play the musical instruments and move according to musical rhythm to develop creative thinking, and also encourage the use of Putonghua. By making use of the rich environmental resources, English stories, games and songs to learn English and phonics, the children can develop confidence in communicating in English. With this inspiring curriculum, our children will be growing up to be healthy, happy, proactive, inquisitive, imaginative and with good character.

Assessment of children's learning experiences

To constantly observe and record children's performance, children development assessment table and build up children learning portfolio.

School Characteristics

School vision and mission

Implement the all-round education and start with early childhood education. We aim to provide high quality education services, design child-centered courses, promote all round development on the moral, intellectual, physical, social and aesthetic aspects, develop children's potential and emphasize the importance in communication with parents, contact and cooperate with community in order to create a pleasant learning environment.

Support to students

Stress on the individual teaching and care, adaptation period for new students, co-operation in community and support for children learning and physical and mental development, stimulation primary activities for the graduates to adapt the primary school life.

Support to non-Chinese speaking (NCS) students

Received Grant for Support to NCS Students; arrange interpretation / translation services; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration.

Support to students with special needs

Joining the On-site Pre-school Rehabilitation Services. Joining the On-site Pre-school Rehabilitation Services, and also joining the Pilot-scheme on Social Work Service For Pre-primary Institutions to assist the students' and families need.

Link with parents

Parent-teacher association : No

Other activities / communication with parents

To hold the activities such as rainbow angel parent volunteer teams, parents' day, parental sports day, parents' volunteer day, parental reading scheme, parents' seminar, parental field trip, graduation ceremony, school open day, parental creation competition. The school communicates with parents in person, telephone, handbook, school web page, e-mails, WhatsApp and eClass Parent App.

Curriculum Details

Curriculum type : Local

Curriculum planning

The curriculum is designed based on educationist John Dewey's theory of 'learn in action'. Children are guided to think and express voluntarily with questions as the starting point. The course of learning emphasizes personal operation and independent exploration for building up new concepts, new knowledge and new experiences as the way to enhance creative thinking and the abilities of communication and problem-solving.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

1. The 'integrated curriculum' is taught from Monday to Thursday for enhancement of independent exploration ability and problem solving skills. 2. The whole-language approach is adopted to strengthen the ability to listen, talk, read and write the Chinese and English languages. 3. The skill of speech delivery is trained through the 'Show and Tell' activity. It can enhance their confidence as well. 4. The 'Multiple Intelligence Development Day' is held on every Friday. Professional lecturers are employed to help children develop multiple intelligences. 5. Free Play programme is launched for promoting development of the gross and fine motor skills. 6. 'Life education' is provided to foster good character and positive emotion through multiple daily life scenarios. 7. The programme of "Shared Reading" helps children raise their interest and ability of reading books. 8. The fundamental skills lessons help to develop the children's independence and self-ability. 9. The woodworking lessons enhance the children's problem-solving skills.

Assessment of children's learning experiences

Students' learning abilities and developments in all aspects are assessed through ongoing daily observations, modular assessment forms, profile on journey of learning and children's works so that efforts can be made to help enhance children's abilities in all aspects.

School Characteristics

School vision and mission

Quality pre-primary education is provided based on the Christian spirit of holistic education. Our sole aim is to serve the children. Besides actively promoting all-around development in moral, physical, psychological, social and spiritual aspects, we also join hands with parents to foster children into individuals who have ample knowledge and noble character.

Support to students

1. New students are arranged to adapt to campus life progressively. 2. Primary one simulation week is implemented. Student are arranged to experience primary one class in a primary school to enhance smooth kindergarten-primary transition. 3. Flexible homework arrangement is made to cater for student differences. 4. Our school has also provided School-based support services to identify children with special educational needs at an early stage. 5. Our school social worker provides counseling service to student and parents, workshops are also included.

Support to non-Chinese speaking (NCS) students

Arrange interpretation / translation services; engage NCS parent volunteers to enhance communication between school and parents; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese.

Support to students with special needs

Joining the On-site Pre-school Rehabilitation Services.

Link with parents

Parent-teacher association : No

Other activities / communication with parents

Curriculum Details

Curriculum type : Local

Curriculum planning

Holistic development is the main concern of the curriculum. To lay the base of lifetime learning, we use the foundation of the learning areas specified in the Guide to Kindergarten Education Curriculum, using an integrated approach and providing real-life themes and learning through games. We have optimized the learning environment and diversified our teaching strategies for children to develop a positive, high moral standard and balanced character.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

The curriculum is taught in interactive groups supported with various group activities, including: language, mathematics, nature and living, daily life knowledge, interesting inference and artistic creativity. This serves to stimulate children's want to learn and curiosity, strengthen the abilities of thinking and problem solving and foster active self-directed learning.

Assessment of children's learning experiences

Performance measures are done based on quality indicators of child development through daily observations. A 'profile on learning' is kept for ongoing observations and records aided with photos for analysis. This includes qualitative and quantitative assessments for objective and truthful record as the evidence of a child's learning and development.

School Characteristics

School vision and mission

Our school motto is 'humility, trust, diligence and intelligence'. Holistic education is provided to foster the development of good character, independent thinking ability, accurate and positive outlook on life. A nice learning environment and comprehensive curriculum are provided to help children learn the enjoyable way and bring into play their potentials as preparations for contributing to the society when they grow up. With the creation of a 'merry, healthy campus' as the goal, we promote all-round and characteristic developments in moral, intellectual, physical, communal, and artistic aspects.

Support to students

Activities are organized for maintaining a tie with the school, such as new students adaptation period, parents day, class observation activities, topic studies, curriculum sharing sessions and festive activities. Through communication between the school and parents, home-school collaboration is promoted for enhancement of students' learning efficacy.

Support to non-Chinese speaking (NCS) students

Received Grant for Support to NCS Students; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese.

Support to students with special needs

Joining the On-site Pre-school Rehabilitation Services. Joining the Kindergarten Stationing Social Work Service Project.

Link with parents

Parent-teacher association : Yes

Other activities / communication with parents

We emphasize parents education as well as communication and collaboration with parents. Home-school partnership is promoted. The parents-teachers committee has been set up for 29 years. Various parent-child activities are organized from time to time for developing close cooperative relationship.

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
Development based on child-centeredness. We value biliteracy, trilingualism and life education. We use the Bible as a basis to let children learn about the truth and cultivate positive attitudes and values in the early years.	
We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.	
Learning / Teaching approach & activities	
We aim to enrich student life experiences and develop multiple intelligences through: Thematic teaching, Project studies, Drama, Off campus visits, Introduction to I.T. and Independent exploration	
Assessment of children's learning experiences	
Formative assessments of children's learning and their development situations are implemented through tools, A growth portfolio is created for each child, to record their learning, physical and mental development progress for each school year.	

School Characteristics	
School vision and mission	
Our school motto, "Faith, Hope and Love". Our mission: To train children in the way that they should go, hence when they are older, they will not depart from it. (Proverbs 22:6)	
Support to students	
Student support groups, include: book reading programs, new-student-parent meetings, new student adaptation periods, The Hong Kong Girl Guides Association "Happy Bee", etc.	
Support to non-Chinese speaking (NCS) students	
Received Grant for Support to NCS Students; appoint additional teaching staff / teaching assistants to support NCS students learning Chinese; arrange interpretation / translation services; engage NCS parent volunteers to enhance communication between school and parents; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration; collaborate with non-governmental organisations (NGOs) to create an inclusive learning environment; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese; participate in school-based professional support programmes organised by EDB; The supporting team assists the children in need to learn effectively.	
Support to students with special needs	
Joining the On-site Pre-school Rehabilitation Services. Co-operate with The Hong Kong Society for the Deaf. The social worker and the volunteer counselor support the children who belong to the unit of SEN at school.	
Link with parents	
Parent-teacher association : No	
Other activities / communication with parents	
Parent-child adaptation programs, Parent-teacher interview days, Parent education talk, Parent-child sport's day, Parents' religious classes, etc. Through these activities, we achieve an enriched education experience for the child.

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
Development based on child-centeredness. Biliteracy, trilingualism and life education. Children learn about the truth and cultivate positive attitudes and values through Bible.	
We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.	
Learning / Teaching approach & activities	
Aim to enrich student life experiences and develop multiple intelligences through Thematic teaching, Project studies, Drama, Off campus visits, introduction to IT and Independent exploration.	
Assessment of children's learning experiences	
Formative assessments of children's learning and their development situations are implemented through tools. A growth portfolio is created, to record their learning, physical and mental development progress.	

School Characteristics	
School vision and mission	
School motto, "Faith, Hope and Love". Mission: To train children in the way that they should go, hence when they are older, they will not depart from it. (Proverbs 22:6)	
Support to students	
Student support groups, book reading programs, new student-parent meetings, new student adaptation periods, Anchor Lamb, etc.	
Support to non-Chinese speaking (NCS) students	
Received Grant for Support to NCS Students; appoint additional teaching staff / teaching assistants to support NCS students learning Chinese; arrange interpretation / translation services; engage NCS parent volunteers to enhance communication between school and parents; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration; collaborate with non-governmental organisations (NGOs) to create an inclusive learning environment; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese; participate in school-based professional support programmes organised by EDB; The supporting team assists the children in need to learn effectively.	
Support to students with special needs	
Joining the On-site Pre-school Rehabilitation Services. Co-operate with The Hong Kong Society for the Deaf. They support the children who belong to the unit of SEN at school. The social worker and the volunteer counselor support the children who belong to the unit of SEN at school.	
Link with parents	
Parent-teacher association : No	
Other activities / communication with parents	
PC adaptation programs, PT interview days, Parent education talk, PC sport's day, Parents' religious classes, etc. Through these activities, we achieve an enriched education experience for the child.

Curriculum Details

Curriculum type : Local

Curriculum planning

A child-centred curriculum arranged in the spiral and progressive approach. It corresponds to the development and interests of children of different ages. Knowledge in 6 key areas is integrated in themes in line with children's life experiences. Through various activities and interesting games, children are stimulated to bring into play their potentials for 'holistic development' to foster the life learning attitude.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

Integrated themes and specially designed activities are used to promote children's learning interests and ability. Teaching is conducted in large and small classes. Learning corners with rich contents are created to foster self-directed learning. Children's curiosity and want to learn are aroused through scientific explorations. Electronic teaching methods and games are used to make learning more interesting. Various campus and off-campus activities and visits, performances and competitions are arranged to help children develop self-confidence and broaden the horizon. There are English and Chinese class teachers in each classroom so that children can communicate in Cantonese and English with their teachers. Each week there is also a Mandarin lesson. Through the diversified learning activities, the children's listening, speaking, reading and writing skills can be improved. In English teaching, the school mainly focus on teaching children phonics, so that young learners can achieve higher level in spelling, reading and writing eventually. In our kindergarten we use Science, Technology, Engineering and Mathematics education. It allows children to participate in exploring, hands-on learning, and experiencing the construction of knowledge. Children learn science through a program which is based on active tasks and cognitive activities.

Assessment of children's learning experiences

A 'profile on learning assessment' is kept. Thematic assessments, ongoing observations and recording of children's learning and behavioral performances are done by teachers. Joint assessments are done by home and school so that both parties better understand a child's learning progress.

School Characteristics

School vision and mission

Adhering to the spirit of Buddha's compassion, we cultivate children's good moral character and noble personality. So that children in the enlighten and pleasant environment can benefit from "Holistic Education."

Support to students

New students adaptation period and briefings for new students are arranged for parents to help students adapt to campus life progressively. Visits to primary schools, primary school experience day and 'simulation primary one experience' courses are provided to help children transit to primary one smoothly.

Support to non-Chinese speaking (NCS) students

Received Grant for Support to NCS Students; arrange interpretation / translation services; engage NCS parent volunteers to enhance communication between school and parents; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese; participate in school-based professional support programmes organised by EDB.

Support to students with special needs

Joining the On-site Pre-school Rehabilitation Services.

Link with parents

Parent-teacher association : Yes

Other activities / communication with parents

We set up Parent-Teacher Association to strengthen parent-school collaboration. We hold special events every year where parents can meet teachers and visit school to observe lessons, so that they can better understand their children's learning progress. School also often organizes parent-child activities, such as parent-child trips, parent-child games and parent-child competitions to enhance parent-child relationship.

Curriculum Details

Curriculum type : Local

Curriculum planning

The curriculum aims to foster children's development in spiritual, moral, intellectual, physical, cooperative and artistic aspects with reference to the Kindergarten Education Curriculum Guide. Various modes of Christian teaching are adopted to promote their comprehensive development, to love and respect each other. Child-centred approach is embraced throughout our curriculum.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

Activity-based teaching with our self-published story books will be able to raise children eagerness in exploring and learning actively. Cooperative learning with high levels of participation, discussion, reporting and expression can promote children's ability to think actively, creatively and analytically. Free play and corner activities allow children to choose what to play and what to do freely in class. It can increase the intrinsic motivation in learning. Computer and large screen are installed in the classrooms to support a better learning experience. Subject teachers are employed to teach English and Putonghua to build a solid foundation of future language learning. Finally, children are nurtured with the correct system of values through the truth of Christianity.

Assessment of children's learning experiences

Comprehensive observation and records are done by teachers based on the criteria for assessment of child development. Incorporate assessments are also made at home by parents to create an overall progress of their learning and growth.

School Characteristics

School vision and mission

We nurture our next generation based on Christian teaching and to promote comprehensive development to our students alone with their parents. ELITE education provided with love and patience to guide children to grow healthily with the correct system of values.

Support to students

Adaptation period and parent seminars are provided to new students and parents. 'Pre-P.1' and primary school visiting are arranged for K3 students. Rewarding schemes are implemented to encourage children to improve. We have an in-school social worker from the Salvation Army School Social Work Service to support our children and families. We are also taking part in the 'On-site Pre-school Rehabilitation Service' which is organised by Heep Hong Society to provide training to parents and children with special educational needs.

Support to non-Chinese speaking (NCS) students

No information

Support to students with special needs

Curriculum type : Local	
Curriculum planning	
Curriculum arrangement corresponds with the children's development characteristics and needs. It covers different fields of study, and it enhances and enriches children's learning experience according to their ability.	
We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.	
Learning / Teaching approach & activities	
Design integrated curriculum, incorporate the elements of language and music into all the learning activities, provide comprehensive and interesting learning experience for children. Make good use of community resources, and participate in community activities to support and broaden children's learning experience, for example, visiting the Road Safety Towns, Brighter Smiles Playland, Green Education and Resource Centre, Hong Kong Science Museum and fire bureau.	
Assessment of children's learning experiences	
Evaluate children's learning experience in the form of continuous observation, and record children's development in every aspect with different assessment tools, in order to establish Children Learning Portfolio, and to share regularly with parents.	

School Characteristics	
School vision and mission	
The school is operate under the Hong Kong Society for the Protection of Children, our mission is to provide children with happy, caring, safe and diverse learning environment; to establish solid foundation for children's life-long learning; to inspire children's potential and holistic development. In addition, the schools provide support and partnership with parents, and to develop children's good habits & self learning.	
Support to students	
We provide adaptation programme for new admission, preparation programme for primary one admission & referral to relevant social services in cooperation with other community institutions. Our 'Educational psychology and Developmental Support Services' formed by Education psychologist and social workers offer professional consultation, assessment, early identification, counseling and individual / group trainings services to children and parents.	
Support to non-Chinese speaking (NCS) students	
No	
Support to students with special needs	
Joining the On-site Pre-school Rehabilitation Services. Integrated Programme in Kindergarten-cum-Child Care Centre	
Link with parents	
Parent-teacher association : No	
Other activities / communication with parents	
For the promotion of home-school cooperation and parental education, our school holds regular parents' day, parents' class observation, parents' volunteering activities, parent-child activities, story parents' plans, parent-child garden programs, parent-child travel, parent-child sports games, open day. We provide the opportunity to let children actively involve in the life of the community. We keep ties with community and make arrangements for children to participate in external performances and visits.

Curriculum type : Local

Curriculum planning

Revolving around the children's interests and development, with the "Child-oriented" focus, we cater to improve their abilities in a creative and enlightening environment to show their talent and capabilities. In order for children to gain a balanced development through life experiences, sensory contacts, various exploration activities and fun games, both biliterate and trilingual game based learning.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

By using topic-based implementation of "comprehensive activities" to integrate their knowledge and understanding of various disciplines. With the combination of the school and parents organization, we incorporate the concept of "project learning" to acquire and strengthen their knowledge through games, site visits and other activities.

Assessment of children's learning experiences

The children's assessment outcomes are recorded on a continuous basis; with their learning history organized in our systematic filing system.

School Characteristics

School vision and mission

For children become a happy, confident, self-loving, self-disciplined, independent, self-motivated and innovative. We encourage children to perform activities such as sorting, storage, cleaning, standards and cultivate children's habits of self-discipline based on the 5-S standards.

Support to students

Freshmen's adaptation period, Primary One bridging programs, lectures, resident social worker, and cooperation with community agencies.

Support to non-Chinese speaking (NCS) students

Received Grant for Support to NCS Students; arrange interpretation / translation services.

Support to students with special needs

Joining the On-site Pre-school Rehabilitation Services.

Link with parents

Parent-teacher association : Yes

Other activities / communication with parents

We have Parent's day, lectures, workshops, Parent-child activities, observation day, parent's volunteer team and special event celebrations.

Curriculum Details

Curriculum type : Local

Curriculum planning

Our curriculum follows the "Kindergarten Education Curriculum Guide" (2017) and adopt "child-centredness". It covers "Values and Attitudes", "Skills" and "Knowledge", which promotes a balanced development in children through approaches of "Real-life Themes", "Integrated Approach" and "Learning through Play", allows students to receive balanced learning opportunities in the five aspects of development. We employ Native English and Mandarin teachers to teach these languages in fun and interactive ways to enhance children's biliteracy in Chinese & English and therefore encourage trilingualism (i.e. spoken Cantonese, Putonghua and English). We also offer a unique Chinese curriculum designed for NCS students to enhance their Chinese proficiency. We provide an online learning platform where children can learn and explore by using information technology. We promote character education for children to learn how to respect and care for others and help them to build up a positive set of values. Our diversified art activities help to cultivate children's self-exploration and creativity while enlightening their creative ability.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

We adopt child-centredness teaching methods which are based on children's life experience. We use theme-based learning, the project-based approach and storybook teaching methods to raise children's initiative in learning. We also provide a variety of activities, including educational outings, science exploration, social services, uniform groups, etc., to give children lively, multisensory, interesting learning experiences and build up their confidence.

Assessment of children's learning experiences

Our school will build a portfolio for each student using diverse assessment and data collection. The portfolio includes continuous observation, assessment reports, art work analysis, etc., to record children's performance in different areas, and systematically analyses children's overall development, identify their needs, and let parents know their child's learning progress.

School Characteristics

School vision and mission

Our mission is to provide a holistic education based on Taoism, placing equal emphasis on students' moral, intellectual, physical, social and aesthetic development. In accordance with our motto "Grasp Principles, Cultivate Virtues", we are dedicated to helping students develop moral integrity and academic excellence.

Support to students

Our school social worker providing professional support and counselling service to children and their families by individual or in a group. We also have parent-child adaptation classes and K.3 Primary School Experience Week.

Support to non-Chinese speaking (NCS) students

Received Grant for Support to NCS Students; appoint additional teaching staff / teaching assistants to support NCS students learning Chinese; arrange interpretation / translation services; engage NCS parent volunteers to enhance communication between school and parents; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese.

Support to students with special needs

Joining the On-site Pre-school Rehabilitation Services.

Link with parents

Parent-teacher association : No

Other activities / communication with parents

Our school will arrange multiple parent-child activities, such as: parent-child school trip, open day, parent-child reading scheme, parent-child game day, and festival celebration. We will also have regular parenting education activities, such as: parent's educational talk, primary one admission orientation, twice a year parent-teacher meetings, parents questionnaire, and Parent Volunteer Team.

Curriculum Details

Curriculum type : Local

Curriculum planning

"H•A•P•P•Y" Learning is our core education value: H - (Healthy) A - (Academic) P - (Polite) P - (Proactive) Y - (Young) With a firm focus on "innocence" and "exploration", our curriculum allows children to cultivate positive virtues and establish the spirit of caring, sharing, accepting, and appreciating. It also helps children foster a positive scholastic attitude and promotes life-long learning. Furthermore, our curriculum develops the courage to create and innovate, and the bravery to accept challenges and succeed through happy learning.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

1. Thematic Approach: The school puts a strong emphasis on personal experience, active exploration, and accumulation of life experience of our students. 2. Project-based Learning: Our teachers implement the curriculum according to children's life experiences, interests, and abilities. We are a child-centred kindergarten. 3. Teaching with Picture Books: Teaching with picture books is an approach consisting of three different stages, namely, "reading," "discussion," and "extended learning activities." 4. English Lesson: To create a positive English-speaking and learning environment and improve the English language proficiency of children; foreign teachers are part of our dedicated staff and are employed at school to provide specialised teaching. 5. Mandarin (Putonghua) Lesson: Our Mandarin lessons are taught by specialist teachers who are responsible for enhancing children's learning interest and improving oral and pinyin skills through interesting learning activities. 6. Childhood Activity Day: Special activities on Mondays, completed in small groups, to develop children's interests and potential. These activities included: Woodworking Group, Outdoor Activity Group, Art Group, Football Group, Harmonious Pastel Group, Chorus, Food Group...etc.

Assessment of children's learning experiences

Through daily observation, record keeping, analysis and continuous assessment, we create a "learning portfolio" for children. Through children's performance and clear feedback, we monitor the scope of their development, understanding and learning as well as their values and attitudes. These help the school and parents to provide appropriate counseling and support.

School Characteristics

School vision and mission

1. We are devoted to providing child-based and truth-seeking education. 2. We address comprehensive education and see students as its basis. We follow a whole child approach to education. 3. Students are encouraged to learn independently and unleash their potentials in an enjoyable, creative and supportive learning environment. 4. We focus on developing positive attitudes and values, nurturing our students into upstanding citizens with academic achievements who will serve the society.

Support to students

1. School bus service and cross-border shuttle. 2. Students Orientation Week. 3. Primary School Visit. 4. On-site, dedicated social work service. 5. Joining the On-site Pre-school Rehabilitation Services.

Support to non-Chinese speaking (NCS) students

Received Grant for Support to NCS Students; arrange interpretation / translation services; engage NCS parent volunteers to enhance communication between school and parents; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese; 1. Admission Support 2. Teaching Support 3. School Social Worker Support

Support to students with special needs

Joining the On-site Pre-school Rehabilitation Services.

Link with parents

Parent-teacher association : No

Other activities / communication with parents

1. Organising thematic seminars and parent-child activities 2. Parent Day 3. Sending messages and making emergency contact via electronic platforms. 4. Making appointments or phone consultations to foster communication opportunities. 5. Creating parent volunteer groups to allow parents to engage and assist in school affairs.

Curriculum Details

Curriculum type : Local

Curriculum planning

We arrange appropriate comprehensive activity curriculum according to the guidelines of the Education Bureau for curriculum development that feature use of games across all aspects of children-centred learning based on students' interests and life experience. We enable children to experience in person so that they can learn happily, communicate skillfully, make hold innovations and dare to undertake responsibilities, develop their unique potentials and gain balanced and all-round development in "morality, intelligence, physical ability, sociability, aesthetic feeling and spirit".

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

Thematic' and 'project-based' approaches are the main modes of teaching. Other ways of learning include 'experimental' and 'mixed-age' approaches to provide opportunities for children to acquire knowledge and gain different learning experiences through action and actual participation. Through cross-age interaction, children are led to guide the peers besides attaining the learning effect of mutual simulation. LEGO® Education: We believe hands-on learning can inspire students' interest in STEAM. With the integration of fun and support of curriculum-relevant materials, we enable every children to succeed in education. In addition, we use the Wizefloor to launch an innovative projection interactive learning model, which allows children to enhance their gross motor skill development, knowledge and collaborative learning experience. English Curriculum "Gifted-Tour" (G- games, I- interactive, F- fun, T- talent, ED - education), which is based on fables and dramatic play, also included systematic synthetic phonics (SSP) programme. Through diversified learning activities and creative teaching materials, children's English listening, speaking, reading and writing skills can be enhanced. A certificate, which is by The Training Qualification UK (TQUK), will be issued to the children who has taken the course and pass the assignment.

Assessment of children's learning experiences

Records of children's learning achievements are kept of through continuous observations, and teaching review is carried out accordingly so that the assessment results are more in line with children' actual development, which can effectively help teachers and parents in assisting children in their development.

School Characteristics

School vision and mission

We uphold the mission of the church to preach the gospel and follow the example of Jesus Christ to nurture our children to love life, be optimistic, care for and help others. We offer Christian education to develop our children's ethics, intellect, physique, social skills, aesthetics and spirituality and lay a solid foundation for their life-long learning.

Support to students

Our professional teachers for individual differences in learning, attach importance to children's emotional expression, care for students' families, promote the culture of parent-child care for communities, appreciation program and hold diversified or outdoor activities regularly.

Support to non-Chinese speaking (NCS) students

No information

Support to students with special needs

Joining the On-site Pre-school Rehabilitation Services. Joining the On-site Pre-school Rehabilitation Services. Resident Social Worker provides individual game therapy, social groups, and focus groups for students in need.

Link with parents

Parent-teacher association : Yes

Other activities / communication with parents

Regular Parents' Meetings, School Announcements, Facebook Page, Students' Handbooks, Parents' Class Visits, Phones Contact and Interviews with Individual Parents to strengthen mutual communication; Questionnaires designed to collect parents' opinions and views, more diversified parent-child activities, and use of outside resources to enrich children's life experience.

Curriculum Details
Curriculum type : Local
Curriculum planning
According to the Education Bureau curriculum guidelines, in line with the development of children's ability and the balance of academic and non-academic development. It adopts the child-centred approach and is applied with collaboration of the families, school and society.
We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.
Learning / Teaching approach & activities
Advocate a diversified learning model, and use the story as a learning medium, with "integrated teaching" supplemented by "topic studies" to cultivate children's self-learning ability through information collection, discussion, experiment, game, visit and report sharing. The development of bi-literacy and tri-lingualism is emphasized by training the abilities to listen, talk, read and write. Specialist and native-speaking teachers are employed to teach Putonghua and English language respectively.
Assessment of children's learning experiences
Through ongoing observation and record of the performance of children in daily learning, information provided by the parents and the collection of children's learning materials and works. After finishing the analysis to become a "profile on child's journey of learning" and a "development report" are prepared at the end of each semester. Appropriate guidance will be given based on the assessment of children's learning experiences and according to their development in all aspects.

School Characteristics
School vision and mission
With family is the core, we join hands with parents to lay the foundation of growth. We pay attention to helping children develop their different potentials and guide them to think with infinite creativity and develop the abilities of self-directed learning and problem-solving.
Support to students
New student adaptation period and arrangements for smooth transition to primary one are provided to cater for children's needs. To provide extended and occasional child care services for parents as needed. Arrangement of nanny van services are arranged for students who live far away from the school. Integrated services are provided professional counselling and appropriate referrals for children with special needs.
Support to non-Chinese speaking (NCS) students
Arrange interpretation / translation services.
Support to students with special needs
Joining the On-site Pre-school Rehabilitation Services. Joining the Integrated Programme in Kindergarten-cum-Child Care Centre
Link with parents
Parent-teacher association : No
Other activities / communication with parents
Communication and liaison with parents are strengthened and good parents-school partnership is fostered through parents day, seminars, parent-child activities, campus class observation, parents gatherings and festive celebrations held from time to time.

Curriculum Details
Curriculum type : Local
Curriculum planning
<p>The child-centred curriculum is designed based on the Guide to Pre-primary Curriculum 2017 as well as our environmental characteristics and school-based resources and corresponds to children's abilities, interests and needs in development. It guides children to build up knowledge through explorations, operation and interactive learning. Topic studies are designed according to social conditions, current news and children's life experiences.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>
Learning / Teaching approach & activities
<p>Large class teaching; group learning; activity-based approach; group explorations; topic studies; specially designed activities; visits and outdoor learning.</p>
Assessment of children's learning experiences
<p>Thematic assessment forms, ongoing assessment forms, children's works, photo records and observation records are used to describe and analyze children's performance in learning and assess their learning outcomes. Children's learning progress is shown in assessments made by teachers and parents as well as children's self-assessments and mutual assessments. Their performance in learning and uniqueness are shown in the profile of learning.</p>

School Characteristics
School vision and mission
<p>Holistic education is provided based on the beliefs of Jesus Christ to attain balanced development in spiritual, moral, intellectual, physical, communal, and artistic aspects.</p>
Support to students
<p>New students adaptation period; organization of relevant activities or courses in cooperation with community organizations and volunteering bodies. Through communication with individual parents, parent-child activities, and meetings and interviews with parents, children's learning efficacy is known. Appropriate adjustments are made to the curriculum and individual counselling scheme is implemented according to children's uniqueness and differences.</p>
Support to non-Chinese speaking (NCS) students
<p>Received Grant for Support to NCS Students; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration; collaborate with non-governmental organisations (NGOs) to create an inclusive learning environment; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese.</p>
Support to students with special needs
<p>Joining the On-site Pre-school Rehabilitation Services.</p>

Curriculum Details

Curriculum type : Local

Curriculum planning

The curriculum is aimed to foster children's development in physical fitness and health, language, early childhood mathematics, nature and living, self and society and arts and creativity based on the overall objective of pre-primary curriculum of Hong Kong and the school-based curriculum development.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

The curriculum is designed with our school mission as the [core] and theme-based approach as the [framework]. Through integrated courses, group discussions, sharing, learning corners and self-selected games, children are guided to develop multiple potentials, self-confidence, independence and self-directed learning. Specialists in Putonghua, native-speaking English Language teachers and computer professors are employed to provide complete learning experiences. Off-campus visits, community exchanges, excursions and other activities are organized for gaining first-hand experiences. On-site observation is also arranged to broaden children's scope of learning.

Assessment of children's learning experiences

Information about learning outcomes of students are collected in several ways: multiple assessment methods, student portfolios and academic reports.

School Characteristics

School vision and mission

We arouse children's interest in learning and guide them to attain holistic-development with love and care.

Support to students

New students adaptation period; survey forms on children's life; class observation day for parents; participation in community activities; interface with primary one; visits to primary school; tracking alumni who has transited to primary school; medical consultant.

Support to non-Chinese speaking (NCS) students

Arrange interpretation / translation services; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese; Considering the fact that non-chinese speaking and newly-arrived children have different starting points and needs on learning Chinese, we teach with appropriate methods to fit their learning variety. Our immersed Chinese language environment helps them integrate into school life.

Support to students with special needs

Joining the On-site Pre-school Rehabilitation Services. Joining the On-site Pre-school Rehabilitation Services and pilot scheme on social work service for pre-primary institution

Link with parents

Parent-teacher association : No

Other activities / communication with parents

Parents' day, class observation for parents, parents' education seminars, parent-child trips and parent-child sports day are organized. Parents are encouraged to participate in activities of the kindergarten. Parents volunteering teams are formed in the hope that parents would join hands to promote development of children in all aspects.

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
Our curriculum adopts "child-centredness" as the core value, which the design is based on the growth and developmental needs of children to provide a real-life and interesting learning experiences.	
We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.	
Learning / Teaching approach & activities	
Sensory exploration and play-based are the mainly strategies, with complement of storytelling, theme-based activities and project approach, adopted for children learning. The learning activities, including information collection, explorations, discussions, outdoor observation and extra-curricular activities, provide children with opportunities to broaden their knowledge, cultivate their spirit of exploration and motivation of self-learning.	
Assessment of children's learning experiences	
The learning efficacy of every child is recorded in a profile with continuous observation, so that to provide children with positive feedback based on their performance on learning and development.	

School Characteristics	
School vision and mission	
We are a non-profit organization with an emphasis on enlightening children's potential and moral development to foster their holistic development in the domains of ethics, intellect, physique, social skills and aesthetics.	
Support to students	
Adaptation period is organized for K1 students to adapt a new environment at ease at the first 3 weeks of the school year which parents may accompany with their children to class. We also maintain the partnership with the community organization by hosting seminars, organizing and participating in various activities. Besides, there are free extra-curricular and uniformed group (Grasshopper Scouts) activities for students. In addition, there are school social workers to support students' needs.	
Support to non-Chinese speaking (NCS) students	
Received Grant for Support to NCS Students; arrange interpretation / translation services; engage NCS parent volunteers to enhance communication between school and parents; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese.	
Support to students with special needs	
Joining the On-site Pre-school Rehabilitation Services.	
Link with parents	
Parent-teacher association : No	
Other activities / communication with parents	
Apart from regular parents' days, various parent-child activities are also organized to enhance parent-child relationship such as sports day, school trips, Christmas party, booth game and workshops. Parent volunteering, class observation and daily contacts provide the way of communication for school, teachers and parents.

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>With the Education Bureau's Guide to Pre-primary Curriculum as the direction, the curriculum mainly adopts the spiral and integrated story-based approach supported with specially designed activities. Activities are arranged according to children's learning interests, abilities and student differences. We aim to help children learn to learn, build up knowledge, foster good attitudes and master skills.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>A child-centred curriculum which adopts story-based approach and specially designed activities to guide children to learn from personal experiences gained through observations, discussions, explorations and putting what is learnt into practice. Stories, music, games and nursery rhymes are used to consolidate what is learnt. Through various activities, such as visits, hiking, birthday parties, snack tasting, festive celebrations and group learning, children develop multiple intelligences such as language, mathematical logic, body movement, visual space, self-reflection and interpersonal relationship for attainment of holistic development.</p>	
Assessment of children's learning experiences	
<p>Report to parents their children's development according to learning objectives of 6 learning areas stated in the Education Bureau's Guide to Pre-primary Curriculum and based on ongoing observations, reviews and records of various activities.</p>	

School Characteristics	
School vision and mission	
<p>To provide holistic education based on the Truth of the Holy Bible and promote all-round quality fostering in spiritual, moral, intellectual, physical, communal, and artistic aspects. A close tie is maintained with parents with love to promote harmonious parent-child relationship.</p>	
Support to students	
<p>Progressive lengthening of school hours is arranged. Open day at the commencement of the new school year. Parents are allowed to accompany their children in campus to familiarize with the learning environment. The fostering of good character is emphasized, character education is provided through the uniformed team and religious courses. Children are encouraged to participate in district activities such as visits to primary school, simulation primary one courses, competitions, visits and performances.</p>	
Support to non-Chinese speaking (NCS) students	
<p>Create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese.</p>	
Support to students with special needs	
<p>Joining the On-site Pre-school Rehabilitation Services.</p>	
Link with parents	
Parent-teacher association : No	
Other activities / communication with parents	
<p>Parent-child reading programmes; home visits; parents group; parents education seminars; parents day; parents volunteering; parent-child hiking; parent-child parties; parent-child creative art competitions.</p>

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
Based on the Education Bureau's guide to curriculum and aimed at holistic development, we aim to foster children's development in language, early childhood mathematics, nature and living, physical fitness and health, self and society, art and creativity.	
We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.	
Learning / Teaching approach & activities	
The curriculum is designed based on theme-based activities in line our school mission. Students are guided to develop self-directed learning and explorative abilities through explorative learning and pictures books teaching. Classroom learning and topic studies are carried out in groups. Through discussions, visits and operation of teaching materials, children learn through games and operation.	
Assessment of children's learning experiences	
Through ongoing observations, records and analysis of children's performance by teachers and parents , a profile on learning is kept to help parents understand their children's progress in learning and development.	

School Characteristics	
School vision and mission	
A Child-centred curriculum which provides quality education, ample learning opportunities, appropriate care to enhancing children's creativity, thinking and problem-solving ability. The curriculum meets the needs of children in linguistic, intellectual, physical, emotional, social and moral developments. Interesting learning activities are provided to enhance children's learning interest and promote balanced development.	
Support to students	
We provide individual counselling for students with learning differences and special needs based on the principle of respect for the rights to learning. Special arrangements are made to take care of the emotional aspect of new students and would-be primary one students. We have social worker provide services for the children or parents who in need.	
Support to non-Chinese speaking (NCS) students	
Received Grant for Support to NCS Students; arrange interpretation / translation services; engage NCS parent volunteers to enhance communication between school and parents; create an inclusive learning environment to facilitate students' integration; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese; participate in school-based professional support programmes organised by EDB.	
Support to students with special needs	
Joining the On-site Pre-school Rehabilitation Services.	
Link with parents	
Parent-teacher association : No	
Other activities / communication with parents	
Good communication with parents is emphasized. To help parents understand their children's learning at school, 3 class observations are arranged during the school year. Interviews with parents and seminars are also held so children's development and learning needs are known and fully addressed.	

Price of Major School Items (2021 / 22 School Year)

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
Our integrated, child-centered curriculum helps children develop self-learning ability and good learning attitudes and character.	
We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.	
Learning / Teaching approach & activities	
1. Project Approach - To stimulate children to explore voluntarily and build up knowledge through the process of observation, discussion and exploration; 2. Montessori Method - To train mathematical and logical thinking, and develop reading and writing skills and self-care ability; 3. Phonics-Made-Easy - To arouse children's interest in learning English, and articulate listening and pronunciation skills; 4. Life education - To manifest the love of Jesus Christ, foster good character and values. At the same time, children are taught according to abilities, special needs and development of children are also catered for.	
Assessment of children's learning experiences	
Continuous assessments; a profile on a child's learning is kept.	

School Characteristics	
School vision and mission	
Objectives: To provide quality holistic education and child care services so as to lay good foundation for children; to provide opportunities for creative expression so children release their potentials; to emphasize home-school collaboration. Partnership is formed with families for attainment of good teaching and learning outcomes; to promote child education strategies and methods	
Support to students	
The School has student support teacher and school social worker to provide counselling for children and families in need.	
Support to non-Chinese speaking (NCS) students	
No information	
Support to students with special needs	
Joining the On-site Pre-school Rehabilitation Services. The school offers "Integrated Services" and "On-site Pre-school Rehabilitation Services" for children with special needs. Through the inter-professional collaboration model (which includes special child care workers, speech therapists, physical therapists, occupational therapists, psychologists and social workers), we provide professional and appropriate training for children with special needs as well as supporting parents.	
Link with parents	
Parent-teacher association : Yes	
Other activities / communication with parents	
A parent-teacher association is set up to allow the parents to participate school activities and do voluntary work, so as to promote home-school cooperation. Moreover, the Salvation Army Pre-School Education Services Joint Parent Association is organized to strengthen contacts between parents and teachers of various schools, assist joint school activities, provide parent education and jointly discuss pre-school education in order to deepen home-school cooperation.

Curriculum Details

Curriculum type : Local

Curriculum planning

Our curriculum is set according to the Education Bureau's Guide to Pre-primary Curriculum to cover the six learning areas. We are the first kindergarten to introduce two award-winning Korean curricula. Together with instructors of the Korean curricula, we construct and edit a curriculum framework and learning assessment that meet Hong Kong children's learning needs. Our main objective is to train up the generic skills of the talents needed internationally and locally in the 21st century, which include innovative thinking, mathematical logic, strategic thinking and problem-solving capabilities. Our curriculum matches children's need for whole person development and empathizes illiteracy and trilingualism. We provide 5 days of English time, English drama training (utilize drama for children to use English "naturally" and "boldly" in "meaningful" contexts, Putonghua classes (taught by teachers who have obtained the Level One certification of the Putonghua Proficiency Test), etc.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

By using the Picture Book Approach with games, exploring activities in groups, group discovery, experience sharing, and group discussions, children are able to observe more, think more, learn from others, and solve problems by themselves. By enriching their environment with learning corners, organizing different visits and talks, and promoting diverse teaching approaches, like the English Drama Team, Orff Schulwerk Music, Korean Gaming Education Tool, Korean Magnet Block Curriculum, etc. Children are able to stimulate their interests, enjoyment of school, and intrinsic learning motivation.

Assessment of children's learning experiences

We assess children's learning performance through continuous observation. We distribute children's learning assessment upon completion of a theme and we distribute the Child's Learning Portfolio at the end of every school term to help parents understand their children's overall development.

School Characteristics

School vision and mission

Sharing the educational mission of the Tung Wah Group of Hospitals, the kindergarten strives to provide the society with diversified pre-primary educational services. We provide Holistic Education to children through a good learning environment, so that children attain balanced development in the domains of language, intellect, physique, emotion and social skills. Based on "Diligence, frugality, loyalty and faith", we foster children to develop positive values and the ability to solve problems.

Support to students

We arrange new student adaptation period, dental care, primary school simulation, kindergarten-primary school bridging courses, individual counselling for students, collaboration with community organizations, etc. Every year, our board of directors allocates funds to sponsor children's interest classes, scholarships for outstanding students, and art scholarships.

Support to non-Chinese speaking (NCS) students

Appoint additional teaching staff / teaching assistants to support NCS students learning Chinese; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese.

Support to students with special needs

Joining the On-site Pre-school Rehabilitation Services.

Link with parents

Parent-teacher association : No

Other activities / communication with parents

Parents' seminars, parent groups, parent-child outings, parents' class observation, English phonics class for parents, parent-child reading programs, campus open day, carnivals, periodic school newsletters, parent questionnaires, etc.

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>Our child-centred curriculum takes into consideration children's' learning interests and promotes development of multiple intelligences. Art and drama elements are integrated into the curriculum to nurture children's' creativity. Children learn biliteracy and trilingualism through relaxing and fun activities, and we also use free play to improve their knowledge through games. On-the-spot first-hand experience broadens children's horizons and enriches their life experience, which helps them build a high-quality cultural foundation.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>Integrated teaching approaches, such as illustration-based approach and creative arts are adopted. Children's aptitude is enhanced through outdoor observations, visits, and personal experiences. This allows children to develop good character, learn more knowledge, and improve self-care ability from a variety of activities. Coupled with excellent teachers, children can grow up healthily and happily, and smoothly enter primary school.</p>	
Assessment of children's learning experiences	
<p>Children's performance in learning is assessed by ongoing observations and a profile of each child's learning journey is created to record his/her development.</p>	

School Characteristics	
School vision and mission	
<p>We aim to provide quality pre-primary educational services. 'Holistic Education' allows young children to learn in an enjoyable way, ignites their potential, and ensures balanced development in linguistic, social, emotional, physical and artistic aspects.</p>	
Support to students	
<p>Orientation day is arranged for new students; transition from Kindergarten to Primary 1 activities are arranged for K3 students; a variety of scholarship funding are also provided to all students to develop their full potential.</p>	
Support to non-Chinese speaking (NCS) students	
<p>Arrange interpretation / translation services for non-Chinese speaking (NCS) students; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration.</p>	
Support to students with special needs	
<p>Joining the On-site Pre-school Rehabilitation Services. Our teachers have received relevant training and have experience in caring for children with special learning needs. In addition, our teachers are very caring and patient, so students continue to improve.</p>	
Link with parents	
Parent-teacher association : Yes	
Other activities / communication with parents	
<p>Parent-teacher meetings before the start of the school year; class observation week; parents' conferences; parents' day, parent-child activities; seminars for parents jointly organized with schools under the Tung Wah Group of Hospitals and parents' collaboration programmes for strengthening the home-school partnership. There are also parent education training classes to continuously enhance the positive energy of parents, promote the parent-child relationship, and establish a healthy and harmonious family life.</p>

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
Under the balanced, integrated and curriculum, teaching and learning take place through diverse play and activities.	
We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.	
Learning / Teaching approach & activities	
The story-based and activity-based approach, project studies and whole language approach are adopted. Diverse, systematic and stimulating play games and activities are means of pedagogy with emphasis on children's self-initiative in learning.	
Assessment of children's learning experiences	
Assessment of children's development is done through ongoing observation and analysis of portfolios. The content covers cognitive, language, social, emotional and physical domains.	

School Characteristics	
School vision and mission	
Our mission: To convey the caring culture and positive messages to children and their families. We emphasize team spirit of our staff and parents education for promoting good home-school collaboration to enhance holistic development of children. Our objectives: To spare no effort in fostering quality next generation by providing a safe and suitable environment for children to grow and attain all-round development in moral, intellectual, physical, social, aesthetic and emotional domains.	
Support to students	
Educational psychologist is employed to provide professional consultation and training over curriculum and pedagogy. Stationing social worker is available to provide supportive services to children in need on regular basis. Speech therapists and occupational therapists are also available to provide counselling, assessment and referral services to children in need. Special child care workers who are specialized in children with special needs are also employed to provide individual education plans.	
Support to non-Chinese speaking (NCS) students	
No information	
Support to students with special needs	
Joining the On-site Pre-school Rehabilitation Services.	
Link with parents	
Parent-teacher association : No	
Other activities / communication with parents	
Social worker is engaged to organize diverse play group, workshops and seminars to help parents better understand various stages of child development and their children's behaviours. We endeavor to ease parents' worries about transition to primary one, enhance children's emotional intelligence, and help parents communicate with children effectively to promote family harmony and cohesion.

Curriculum Details
Curriculum type : Local
Curriculum planning
Our school adopts a child-centered philosophy and follows the Kindergarten Education Curriculum Guide (2017) to design appropriate courses for children based on their developmental abilities, needs and interests. The school selects and tailors teaching materials to integrate the six learning areas such as language, physical fitness and health, self and society, early childhood mathematics, nature and living, art and creativity in order to form a comprehensive curriculum to foster balanced development of children.
We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.
Learning / Teaching approach & activities
Theme-based learning approach, supplemented by project approach and whole book approach, which are experience-based learning modes, are adopted. Responding to the Kindergarten Education Curriculum Guide 2017 and the trends of social development, we reinforce to nurture self-directed learning in children and let the children to explore and learn through play. During the daily free play time, children can enjoy designed corners related to the theme. They can also explore the common materials and cooperate with their partners to apply their existing experience to build new knowledge and skills. Teachers promote children's learning outcomes through individual scaffolding, group learning and group discussion. One physical coach is employed. Children are fostered to enjoy sports by having rhythmic movements and dance, group games and creative games. Native Mandarin and English-speaking tutors use stories and nursery rhymes to stimulate children's motivations and interests in learning a second language.
Assessment of children's learning experiences
The school adopts a continuous assessment and prepares a unit performance evaluation form to record the performance of children. Teachers also collect evidences from observations on daily school life, exploration through play, anecdotal records, coursework and works. Parental feedback is also collected as reference. The unit assessment form reflects the learning performance and development progress of children in various themes during the year. Teachers design the family observation part in different themes and invite the parents to share and fill in the children's knowledge and skills in the daily life. Both teachers and parents have a close information exchange on the performance and development of children and serve as a reference for curriculum design and parenting.

School Characteristics
School vision and mission
We follow the principle of 'benevolence and care for humanity' and provide quality holistic education to foster development of students into pillars of the nation. We endeavor to promote the child-centered teaching approach with children's needs in development as our main concern. We aim to guide children 'learn enjoyably and grow up happily' with loving and respectful attitude hand in hand with their parents.
Support to students
To support diversity in learning, our Kindergarten Support and Development Department incorporates with "School Social Worker" and "On-site Pre-school Rehabilitation Team" from Social Welfare Department in order to cater students' special education needs. We also provide extra-curricular activities for students such as arts & crafts, STEM, drama, second language learning, cooking and "Happy Bee" from the Hong Kong Girl Guides.
Support to non-Chinese speaking (NCS) students
Received Grant for Support to NCS Students; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese.
Support to students with special needs
Joining the On-site Pre-school Rehabilitation Services.
Link with parents
Parent-teacher association : No
Other activities / communication with parents
Our school values home-school communication and cooperation. Parenting activities are held regularly. The school social worker plans and collaborates with teachers to conduct parenting courses, talks, small groups, parent-child playrooms and a volunteer group to practice parent-teacher cooperation and enhance parental effectiveness.

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>Anchors Kindergarten originates from Christian beliefs and the Invitational Education approach (IAIE originated in the U.S.). We believe that all children are capable, valuable and possess a responsible attitude. Combining the standards of Chinese and International education, we can explore each student's unmitigated potential, allowing them to cultivate their unique personal qualities and to learn to respect different cultures.</p>	
Learning / Teaching approach & activities	
<p>We use the advantages of "theme based" and "project approach", our teachers will often step outside of the classroom with students and collectively design themes to diversify learning from inside and outside of the classroom.</p>	
Assessment of children's learning experiences	
<p>Profile on growth; assessment of learning based on ongoing observations; assessment of theme-based learning.</p>	

School Characteristics	
School vision and mission	
<p>We run the school based on the Christian spirit. The fostering of self-esteem, self-love, hardworking and diligence is emphasized. Fairy-tale-like campus with loving atmosphere is created for children to learn worry free so they attain perfect development in moral, intellectual, physical, communal, and artistic aspects.</p>

Curriculum Details

Curriculum type : Local

Curriculum planning

We use small group approach with emphasis on group discussions and personal sharing to encourage our children to build up their confidence and communication skills. We aim to widen children's horizon and enrich their daily experience with onsite visits and outdoor activities alongside with the assistant or multimedia devices. We aim to develop each child with facilitate development of their strengths, character, ethics and personal attributes who always with positive motivations to face the new challenges to be experienced in the learning path.

Learning / Teaching approach & activities

We are dedicated to help children to develop their own characters and to discover their potentials, to stimulate creative and critical thinking through encouragement and to build up self-motivation and self-learning skills by actual experience and observations.

Assessment of children's learning experiences

Our school makes comprehensive evaluation of children through continuous observation.

School Characteristics

School vision and mission

"BILOK" B-Bravery I-Innovation L-Leadership O-Observant K-Kindness We are dedicated to cultivating children of character and integrity, who have the self-motivated to learn through experience and observation. We help each child to discover and reach their potential by stimulating their curiosity to learn.

Support to students

Arrange freshman adaptation week to help freshmen adapt to new learning environment; in daily learning activities, teachers take care of students' needs, intervene appropriately, and give students support and encouragement.

Support to non-Chinese speaking (NCS) students

Received Grant for Support to NCS Students; arrange interpretation / translation services; engage NCS parent volunteers to enhance communication between school and parents; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration; collaborate with non-governmental organisations (NGOs) to create an inclusive learning environment; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese.

Curriculum Details	
Curriculum type : Non-local	
Curriculum planning	
<p>We emphasis on character training for materialization of the concept of 'pursuit excellence with rooted character'. Moral education is the theme of learning. Chinese classical literature is taught, such as Di Zi Gui, Three Character Classic, Thousand Character Classic, Great Learning, Laozi and Tang poetry. Besides passing on the traditional Chinese culture, classical epigrams are also integrated in the moral teaching for holistic education. Specialists are employed to teach lessons of English language, Putonghua, music and physical fitness each day. The training of bi-literate and tri-lingual abilities ensures that children are well-prepared for future learning.</p>	
Learning / Teaching approach & activities	
<p>Group learning, outdoor visits and plantation, performances in elderly center from time to time, community care visits on festive occasions. Through interactions with teachers and peers, children are fostered to show concern for the community, develop self-directed learning, self-confidence and bring into play their potentials.</p>	
Assessment of children's learning experiences	
<p>A child's journey of learning, growth and development are observed and recorded on an ongoing basis. three assessment reports on learning are prepared during the school year.</p>	

School Characteristics	
School vision and mission	
<p>The ultimate goal of education is to become a good person. Our school motto is 'develop good character before pursuit of excellence'. We aim to foster good character in students since childhood. They are taught to be filial to parents, respect elder members of the family, be polite and have a sense of honor and shame. We also teach knowledge so they become individuals of talents and morality. We promote the study of 'Confucian classics'. Children are exposed to classical Chinese literature for absorption of wisdom of the ancient sages. This is arranged for heritage of the traditional Chinese culture and fostering good character and noble mind.</p>	
Support to students	
<p>Adaptation period for new students who start their school life; guidance to learning and counselling on transition to primary school. Students' participation in public performances and competitions. Cooperation with community organizations to help students broaden the scope of learning, enhance self-confidence and experience team spirit.</p>	
Support to non-Chinese speaking (NCS) students

Curriculum Details	
Curriculum type : Non-local	
Curriculum planning	
<p>Our international curriculum adopts enhanced EYFS with strong influence and inspiration from Reggio Emilia and inquiry approach for children from 6 months to 6 years old. The Reggio Emilia philosophy follows the belief that children have "One Hundred Languages" and 100 ways to explore, discover, imagine and express themselves. At MAGART, we respect and empower our children to self-direct their learning. Our teachers are researchers and facilitators alongside our children, encouraging and enabling them to be communicators, thinkers and investigators as they navigate and create their learning journey!</p>	
Learning / Teaching approach & activities	
<p>Play-based Approach: To support children with an appropriate daily play approach and physical learning environment that enables them to choose activities freely. Self-directed Approach: To inspire children with a choice of hands-on learning engagements, to learn, explore and think critically and independently. Constructivist: To present children with an inquiry-based, constructivist learning that takes place in discovering learning and problem-solving situations. Authentic Approach: To develop an authentic context for learning; meaningful, significant, purposeful and relevant, that our children can relate to.</p>	
Assessment of children's learning experiences	
continuous assessment, online portfolio, weekly update, observation	

School Characteristics
